THIS IS UNEVALUATED INFORMATION

1. About two kilometers east of Postoloprty (N51/F21), on the north side of the Chomutov (N51/F 02) - Louny (N51/F 21) road, a factory project, covering an area 1000 x 500 meters, is under construction. Ten buildings, each 200 x 60 meters, have been constructed, apparently suitable for either assembly or machine production. Six of these buildings have metal quonset-type roofs; four have saddle-type roofs with skylights.

2. A three-story factory building, 250 x 200 meters, was completed by the middle of May 1951, about four kilometers north of Rokycany (N50/ L 24) on the west side of the road which runs between Rokycany and Rakovnik (N51/ L 28). Machinery, especially presses and milling machines, are being delivered to the factory. Three two-story buildings, apparently billets for employees, are being completed near the factory site.
